PREVENTING HIV TRANSMISSION

HIV Patient Education and Care

HIV Patient Education and Care

Target Zero Film:

- Give specific examples of how the technical and scientific aspects of HIV treatment were communicated to the patients by the medical personnel
- How would you communicate this information?

HIV Patient Education and Care

Target Zero Film:

- Do you think patients would benefit from a deeper understanding of how the drugs work? If so how should this information be conveyed?

HIV Patient Education and Care

Target Zero Film:

- Give specific examples of how the medical personnel gave compassionate, non-judgmental care

Role-play activity: Rules

- It's a safe learning environment that will allow you to look at a disease from the patient's perspective
- The focus is on exchanging ideas not getting things right and wrong
- Have fun, but laugh with each other, but not at each other
- What happens in this class, stays in this class. Do not use any recording devices.
- Criticize constructively: give feedback to each other during activity and during the post-activity discussion. If you see areas that need improvement, give suggestions

Post role-play discussion

- How well does the physician explain the medical/factual questions to the patient?
- How are the communication skills of the physician?
 - Attitude
 - Compassion
- How does the physician addresses the emotions of the patient?
